# Cloud Expense Management

Keeping your cloud spend in check and getting the most out of your budget is often easier said than done. Let Sakon's Cloud Expense Management solution transform the way you navigate cloud expenses and empower you to manage payment workflows with confidence and control.

# One Place To Manage All of Your Cloud Expenses

Sakon's Cloud Expense Management solution revolutionizes the way enterprises handle AP Invoice Automation for top-tier Infrastructure as a Service (IaaS) vendors like AWS, Microsoft, Google, and Oracle. Seamlessly managing the invoice load, allocation, and payment of Cloud invoices, our cutting-edge solution empowers businesses to automate payment workflows and drive significant cost reductions.

## 1 Streamlined Automation

Meet the highly automated platform that effortlessly retrieves, loads, validates, allocates, and processes payments for cloud expenses. Experience a seamless and efficient workflow that eliminates manual effort and maximizes productivity.

## 2 Accurate Rate Validation

Ensure precise cost management by validating invoice charges. Rest easy knowing that billing is accurate and, in turn, you are not overpaying for this growing spend area.

## 3 Batch Invoice Processing

Simplify your payment chargebacks with automated batching capabilities. Our solution enables you to efficiently process multiple invoices at once, which ensures employees are spending more time on the things that drive value for your organization.

## 4 Flexible Vendor Payments with FlexPay

Optimize your working capital with electronic vendor payments bolstered by Sakon's extended payment terms. Unlock funds for other IT projects.

## 5 Comprehensive Payment Reconciliation

Stay in control of your financial records. Seamlessly reconcile payments made with invoice records to ensure accurate and reliable financial tracking and eliminate any discrepancies.
